Quicken Loans is one of the largest full-service residential mortgage lenders in the United States. We're America's Largest Mortgage Lender. We close loans in all 50 states and have more than 30 years of experience in the industry.

It all started in June of 1985 with a simple concept that, even today, large mortgage companies just don't get. Guess what? Buying a house can be one of the most stressful, frightening, exhilarating, and exciting times in a person's life. Dan Gilbert, our Founder and Chairman, thought to himself, **WE CAN DO IT BETTER THAN EVERYONE ELSE.**

So we did.

Today, Quicken Loans is a privately-owned company that is closing billions of dollars of loans every year. And we have oodles of awards. OODLES. We just can't stop winning things like **FORTUNE Magazine's "100 Best Companies to Work For"** and **Computerworld Magazine's "100 Best Places to Work in Technology."** Seriously – we can't stop winning. No joke.

Yep, we're kind of a big deal.

Being "big" doesn't mean we're boring. Stuffy corporate atmosphere? Not here! There's no daunting hierarchy, and "boss" is a four-letter word. Our team members are dedicated to honing your skills, helping you grow as a person and making sure you have fun doing it. If you work hard, you'll reap the rewards, both **professionally** and **personally**.

► Capital Markets

Do you like watching the markets? We in the Capital Markets Group maintain profitability for the company by developing the products we sell and setting the interest rates for our loans every day. Cap Markets (as the cool kids call them) buys and sells financial instruments that protect the value of locked loans that haven't yet closed, and also audit and ship loans to the final investors. Here, you'll be exposed to the bond market, Wall Street and other economic indicators.
